CLINIC MANAGEMENT SYSTEM

MADE FOR MALAYSIAN GP AND SPECIALIST CLINICS

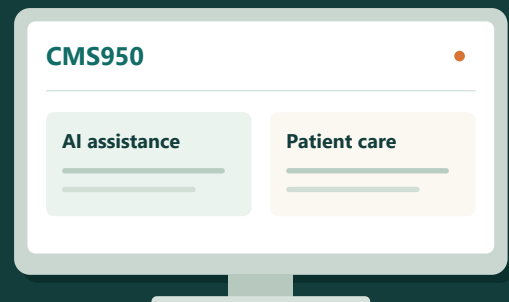

Clinic management, reimagined with AI.

Bring patient care and clinic management together, with intelligent assistance designed to save valuable time in everyday work.

**Less paperwork.
More time for patients.**

Ease routine documentation and give your team more time to focus on care.

Images are illustrative. Screen concept is not the actual interface.

FOR SINGLE CLINICS AND CLINIC GROUPS

Connected care. Simpler management.

Support one clinic or manage a clinic group, with the essentials your team needs in one system.

AI-ASSISTED WORKFLOW

Less routine work, more focused care

Reduce repetitive documentation and make clinical information easier to review, with your clinicians in control.

Multi-visit treatment packages

Session- and package-based care for therapy, aesthetics and alternative clinics. Pay once for multiple treatment sessions.

Patient records & MyKad

Connected records and MyKad support for patient registration.

Appointments & queues

Manage bookings, patient calling and the flow of each clinic visit.

Medicine label printing

Print clear medicine labels as part of everyday dispensing.

Inventory oversight

Keep track of medicines, supplies and daily stock activity.

Billing & panel accounts

Bring charges, collections and panel administration together.

MyInvois e-Invoicing

Support your clinic's e-Invoicing needs within your daily work.

Patient communication

Communicate with patients through WhatsApp.

Free in-house content platform

Share your clinic's own content with the included platform.

A simple start. Room to grow.

Low start-up cost. Monthly or yearly subscriptions.
